

The change of Chiropractic treatment fee

We always appreciate you coming to our clinic for your good health. It is our pleasure and honour.

This year from October 1st, our consumption tax will increase. In chiropractic department, we tried our best to reduce the running cost, but the running cost has been increasing since last year. We can expect the cost will raise again with this consumption tax increase.

We thought this is the time to change our treatment fee system for our best service. We decided to change the fee as below (Tax included). We will apply this system from April 2019.

Since January, we renewed our medium size of the gown. This gown is custom-made and made of 100% gauze by Soki. We will keep trying our best for your comfortable healing session. I would like to ask you for your kind understanding. We would appreciate your continuous cooperation and friendship.

Hiroshi
